The game is playable at EA Play on Sunday, June 10 and FIFA 20 Ultimate Team on Tuesday, June 12. Last week, EA Play was the epicenter of football in the real world and on a global scale, with players and clubs from the Premier League, Bundesliga and La Liga all converging on the U.S. from the start of the FIFA 20 Champions Cup, which saw Manchester City win the inaugural event in a 4-2 win over Barcelona. This year marks the first time teams from these leagues will compete in the FIFA 20 Champions League (F20CL). EA Play - The NFL Experience On Sunday, June 10, the world's leading NFL clubs will be staging EA Play - The NFL Experience in Los Angeles. Players from the Cincinnati Bengals, Los Angeles Rams, New England Patriots, New York Giants, Philadelphia Eagles, Pittsburgh Steelers, San Francisco 49ers, Seattle Seahawks and Super Bowl champions the Los Angeles Rams will be capturing the biggest challenge of their NFL season in a large-scale game of Madden NFL 20. Additional gameplay challenges include a series of five special training scenarios to put club stars through the paces, including sessions in LA and New England for the Rams and Giants. These five training sessions will unlock a series of game-changing moments that reflect the intensity and complexities of NFL game day. Record-breaking event schedule Players will be able to compete in Play the Game in the two FIFA 20 Ultimate Team modes: FIFA Ultimate Team and FUT Champions. In Play the Game, players can choose from one of 12 all-time greats, take their position, wear the boots of their favorite position, and compete in four modes: Practice, Replays, Training and Online. Introducing a new Physics engine, the LBS brings a host of new playing features as well as deeper gameplay options. Changes include: Ability to break tackles - Control of players is now more key to winning and losing the ball. Defending players can tackle the ball carrier more than ever, and the player with the ball is able to control the direction he takes, as well as the speed. Distance coverage - The LBS brings cover in many more directions, creating a more agile defense. Advantage - A wider range of play, and

greater freedom of movement to the attackers can lead to better chances for the strikers and also allows for more creative tactics. Long shots and dribbles - The LBS brings increased chances for long shots, shots on target, as well as more dribbles and movement. Kick-ins are no longer effective - The LBS makes kick-ins completely ineffective, with the player being kicked into the air being unable to control the direction of the ball. bc9d6d6daa
